

Active Lives Children & Young People Survey (West of England) Academic Year 2018/19

21.6% of children in the West of England are **active every day**, for **60 minutes** per day. This is a significant increase of **5.8%** since last year.

The number of children being **active every day** in **Bath & North East Somerset** has significantly increased by **11.7%** since the last academic year.

7.7% more children in **Bristol** are also doing **60 minutes** of activity **every day** compared to last year.

The Active Lives Children & Young People Survey for the Academic Year 2018/19 was released by Sport England in December 2019. Data is presented for children and young people in school Years 1-11 (ages 5-16) in England.
